

DVD Copy 6

Easily Copy DVDs, and create DVD video & DivX® discs.

Corel® DVD Copy™ 6 makes it easy to copy DVDs and create DVD video and DivX discs. Enjoy quick one-click DVD copying, or compile your video clips on to a disc to watch on your DVD player. Easy, fast and reliable, DVD Copy 6 is your hassle-free video copying tool.

Features and Benefits

Everything you need – in 3 easy steps

DVD Copy offers a simple process to complete most tasks: Just choose Source, Target drive and format, click Start, and you're on your way to a perfect copy!

NEW! More user-friendly – The animated Selector Wheel makes choosing tasks easy and fast. Realistic icons clearly show output options for the task at hand.

NEW! Switch languages – At any time, switch the entire user interface language – great for bilingual environments.

Uninterrupted TV shows – Cut out the commercials before burning your recorded TV shows to DVD.

Personalized discs – When copying a DVD, select just the titles or chapters you want, to create your personal DVD.

Quick Disc Copy – Need to make a quick 1:1 duplicate disc? Just select Disc Copy, video source & target, and click Burn.

Copy to Hard Drive – Access and edit your content with ease. DVD Copy lets you duplicate your DVD-Videos onto your hard drive in MPEG-1, MPEG-2 or DivX® format. Play it from your hard drive, edit in your favorite editor, convert to other formats, or compile new discs.

Erase Disc – With just a click, DVD Copy 6 can erase RW-discs to recycle them like they're new.

Create Disc Image – Create disc images of your movies and save on your hard drive for later burning. This is the most reliable way to produce multiple copies.

More formats and devices supported

NEW! DivX® HD Support – Import and create High-definition DivX HD video files of up to 1280x720 frame size. Burn 2 hours of High-definition video to DVD discs with the original subtitles, audio tracks and even interactive navigation menus, that plays on DivX Hi-Def DVD players.

NEW! H.264 HD Support – Encode your HD video in cutting-edge H.264 HD and save disc space while maintaining great quality.

NEW! MPEG-2 HD Support – Convert video to HDTV format for playing on your home theater.

NEW! XVid support – DVD Copy now supports this popular P2P file format, giving you access to much more material.

HDV Support – converts High-Definition HDV captured from HDV camcorders from Sony, Panasonic, JVC and Canon.

Burn to any disc – DVD Copy supports common recordable media formats including DVD+/-R, DVD+/-RW, CD-R/RW, DVD +/- VR, and DVD-RAM.

4.85GB DVD-R EX support – Burn to 4.85GB Extended Capacity discs, for even more video content.

Duplicate Double Layer Discs – Copy larger capacity DVD+R/-R double layer discs, so you can maintain the original DVD quality without shrinking content.

Squeeze double layer DVDs – Compress dual-layer DVD-Videos onto single-layer DVDs while maintaining visual quality. Select from six different compression rates and preview the quality before burning.

Copy Dual-layer DVD to two discs – Span one dual-layer disc into two single-layer discs, with a prompts to insert the second one during playback.

DVD to CD – Copy DVD videos to multiple CDs, in Video CD (VCD) or Super Video CD (SVCD) format. Play back your discs on set-top DVD player or PC.

Auto-fit DVD-Videos to CD – Copy DVD-Videos to CD in high-quality DivX & WMV formats! The Auto-fit feature adjusts the bit rate so you can even burn your entire movie onto a single DivX® CD.

Rip Audio CD & DVD Soundtracks – Extract audio tracks and burn them to CD with the Copy DVD to Audio CD feature.

Output to WMV-HD disc images – Playback high-definition video on your Windows XP PC. Includes support for 1920 x 1080, 1440x1080, and 1280x720 resolutions.

NEW! Vista-Certified – Fully certified to work with your new Windows Vista™ operating system.

Faster performance

NEW! Faster opening time – DVD Copy launches twice as fast as previous versions. Less waiting means more time for copying!

NEW! Intel® Core™2 Duo Certification – DVD Copy is optimized for faster copying and conversion on the new Intel processors.

Note: DVD Copy will not copy protected material.
