## Create a Slide Show to Share with Friends & Family

Want to know the easy way to share hundreds of photos at a fraction of the cost of reprints? Create a slide show! With Paint Shop Photo Album you can make a slide show that includes your photos and even your favorite mp3 or .wav file, giving your viewers a complete audio-visual experience.

#### What you'll need:

- Several digital photos organized into albums (folders)
- Jasc<sup>®</sup> Paint Shop<sup>™</sup> Photo Album<sup>™</sup>

# When you complete this tutorial you'll be able to:

- Select an album containing the images you want in your slide show
- Rotate photos
- Associate a soundtrack with the album
- Select slide show options
- Save a slide show
- View a slide show

#### Choose an Album

- Choose Start > Programs > Jasc Software > Jasc Paint Shop Photo Album or double click the Photo Album Icon on your desktop to open Photo Album.
- 2. In this tutorial we're going to use an album filled with family photos, you can follow along using the album filled with photos you want to share.
- 3. Use the **Browse** tab on the left to locate the album that contains the photo you want to use.
- **4.** Select the album to display the thumbnails in the album view on the right.

### Rotate Photos

- 5. Before you create your slide show, be sure to rotate any photos that need rotating.
- 6. Select the photo that needs to be rotated, and then click the down-arrow on the **Rotate** button and choose **Rotate Right** or **Rotate Left**.

#### Associate a Soundtrack

7. If you want sound to play when you run the slide show, you can associate a soundtrack with the album. Choose File > Select None (Ctrl+D) or click a blank area in the Album View window to deselect any images. This will ensure the soundtrack is associated with the entire album and not just a particular image.
