

Include Your Twitter Account on Your Website

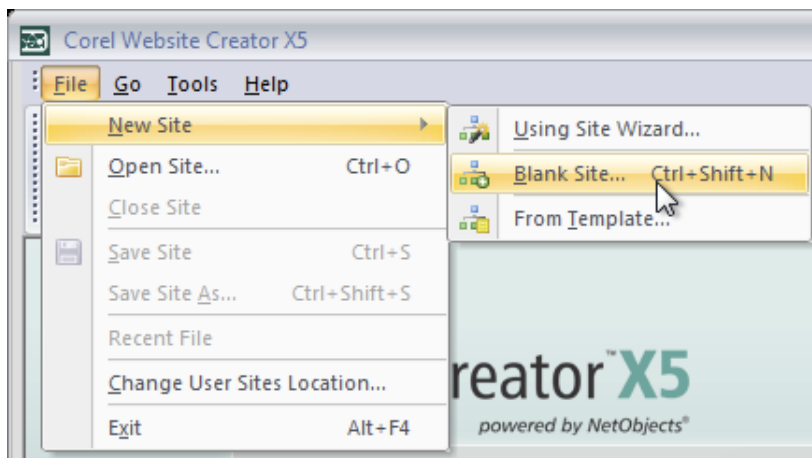

Twitter connects you to your customers in a way that is dynamic, and flexible for your needs. Whether you tweet a monthly coupon code to your followers, build a personable relationship with your customers, or simply inform your users of milestones reached on a project, extend your Website by including your profile and latest “tweets”!

Difficulty – Beginner

Materials – An active Twitter account

Preparation

Open Corel Website Creator X5 and from the File menu select New Site > Blank Site.

Name your site twitter. Click to the Page view from the View bar.

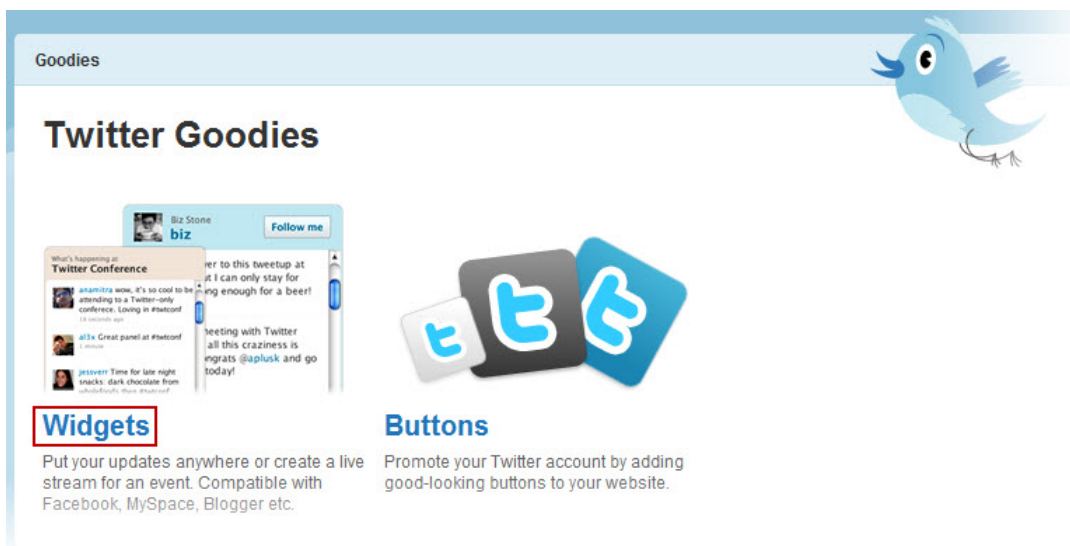

Step 1

Login to your active Twitter account and locate the Goodies link at the bottom of your Account page.

Step 2

Click the Widgets link.

Step 3

Select the Widget for My Website.

Step 4

For this tutorial, we will be adding the Profile Widget.

Profile Widget

Display your most recent Twitter updates on any webpage.

Step 5

Edit the available options for your Profile Widget to suit your Website. The look and feel is under the Appearance tab.

Customize Your Profile Widget

Widget Colors

<input type="text" value="#333333"/>	<input checked="" type="checkbox"/>	<input type="text" value="#ffffff"/>	<input type="checkbox"/>
shell background		shell text	
<input type="text" value="#000000"/>	<input checked="" type="checkbox"/>	<input type="text" value="#ffffff"/>	<input type="checkbox"/>
tweet background		tweet text	
<input type="text" value="#4aed05"/>	<input checked="" type="checkbox"/>		
links			

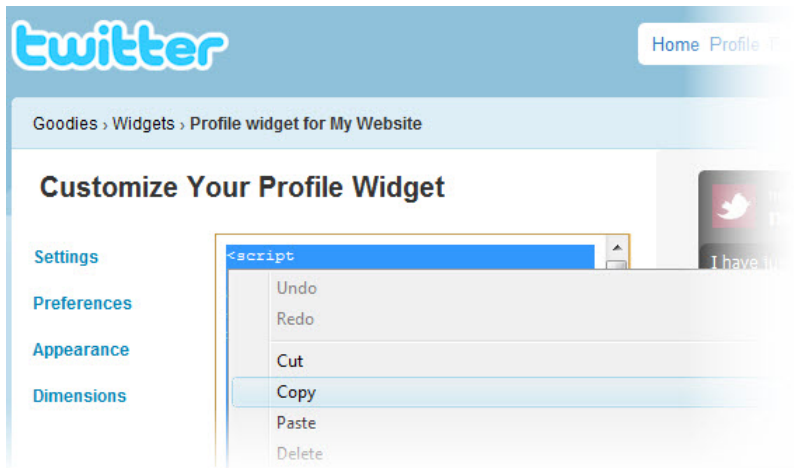

Step 6

Once your Widget is edited, click Finish & Grab Code.

Step 7

Copy the code generated by Twitter (select the code and right click > copy).

Step 8

Tab back to Corel Website Creator X5.

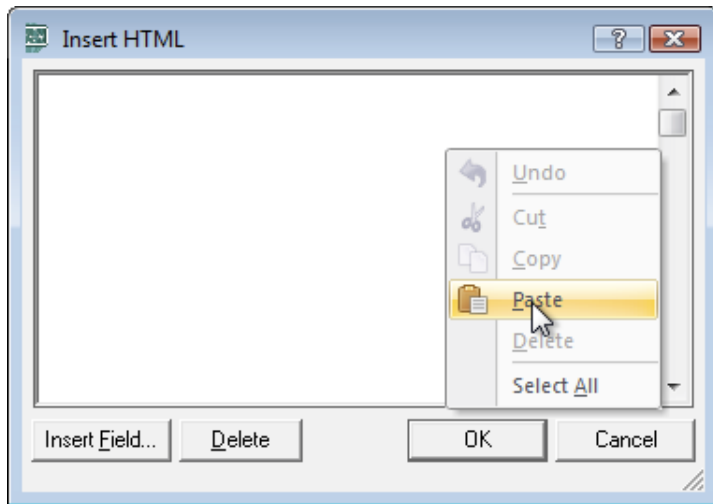

Step 9

From the Standard Toolbar, select and place a textbox in the layout of your page.

Step 10

Click Ctrl+T to open the custom HTML insertion box. Paste the copied code into the Custom HTML Insertion box.

Step 11

Publish your site and enjoy your Twitter profile feed directly on your website!

Wrapping Up

Adding your Twitter feed to your personal or business website shows activity and a new level of dynamic content. This is one of many new social media outlets that provide creative ways to inform your visitors of current information.
