

Choose the Paint Shop™ Pro® That's Right for You

Traditionally, Paint Shop Pro has had so much to offer that new users could get overwhelmed by the depth of the tool set. When we surveyed Paint Shop Pro users, the results were evenly split: half wanted a Paint Shop Pro with more power, and the other half wanted software that was fun and easier to use. It was obvious that just one Paint Shop Pro wouldn't satisfy users anymore. Customers talked, we listened, and now there are two Paint Shop Pros to choose from.

Features	Jasc® Paint Shop™ Pro® Studio	Jasc® Paint Shop™ Pro® 9
