COREL® WordPerfect® OFFICE X3

Everything you expect in an office suite
and more—for less. It makes Perfect sense.

With word processing, spreadsheets and presentations software—plus new email—Corel® WordPerfect® Office X3 is ideal for large organizations, government departments and business and home users looking for a full-featured office suite. Trusted by millions, priced significantly less than Microsoft® Office, it makes Perfect sense.

STANDARD EDITION

Includes:

WordPerfect® X3

Legendary word processing

Quattro Pro® X3

Versatile spreadsheets

Presentations™ X3

Stunning multimedia slide shows

WordPerfect® MAIL*

Powerful email with lightning-fast searches

Full featured

Use built-in PDF tools that others pay hundreds of dollars for, to create documents, spreadsheets and presentations in PDF format. Edit and reuse the content of previously created or saved PDFs in WordPerfect X3. Use the new Metadata Removal feature to ensure that hidden confidential information is taken out of your documents, so you share only what you want to.

Affordable

Get a complete, proven office suite for up to 60% less than the cost of Microsoft Office! **

Easy to use

Get up and running right away with a free two-hour training video on CD and take advantage of the PerfectExpert™ to get tips and tricks as you work. Customize your applications to resemble Microsoft Office in a few clicks.

Compatible

Share files with Microsoft Office users—open, edit and create files in Microsoft Word, Excel® and PowerPoint®. Turn documents, spreadsheets and presentations into PDFs, or 150+ other file formats.

Features and Benefits

New Stay in touch with WordPerfect® MAIL*

* WordPerfect MAIL is an optional component in license SKU purchases.

** Based on the suggested retail prices of Corel WordPerfect Office X3 - Standard Edition Upgrade version versus Microsoft Office Standard Edition 2003 Full version at the time of printing or electronic distribution.

† Corel WordPerfect Office X3 will open the vast majority of files created in Microsoft Word, Excel and PowerPoint. Due to differences in the applications, on occasion a file may not open and, in some cases, formatting may not be identical. PDF editing features in WordPerfect X3 enable users to open, edit and reuse the content of most PDFs within the familiar environment of a word processor. Upon import, some formatting changes may occur, depending on the content in the PDF file and the application that created the source PDF file. Text that is part of a bitmap image within the PDF may require additional Optical Character Recognition (OCR) tools to convert the image to editable text.
