Compress/Decompress

Zip and unzip files quickly and easily

Compress files to save space and reduce transmission times

NEW! Work the way you think using the new Zip button—first selecting the files you want to zip, then saving your Zip file*

Create Zip, LHA, and new Zipx files, our smallest Zip files ever

Utilize 'best compression' method based on file type to maximize efficiency

Reduce JPEG image files by 20 – 25% with no loss of photo quality or data integrity

Open and extract Zip, Zipx, RAR, 7Z, LHA BZ2, CAB, IMG, ISO, and most other compressed file formats

NEW! Use 1-Click Unzip to automatically extract the content of an archive to a folder it creates and open that folder in Windows Explorer for easy editing access*

NEW! Auto Open a zipped document, spreadsheet, or presentation in its associated Microsoft Office application by simply double-clicking the Zip file within Windows Explorer or Microsoft Outlook*

NEW! Use Open With to unzip an Office document “or other Zip file” using the default Windows file association or the application you specify, and—if you make changes—WinZip will offer to save them back to the Zip file for you*

Experience better performance on most files with LZMA compression

View international characters in filenames through Unicode support

Create and read very large Zip files (>4 GB)

Encrypt/Decrypt

Encrypt and decrypt confidential files and email attachments

NEW! Just check Encrypt to password protect your files and keep them completely secure

Secure sensitive data with strong, FIPS-197 certified AES encryption (128- and 256-bit)

NEW! Auto-wipe ('shred') temporarily extracted copies of encrypted files using the U.S. Department of Defense standard (DoD 5220.22-M) to prevent misuse

NEW! Take advantage of hardware acceleration available in certain Intel-based computers for even faster AES encryption

Set password policy by defining complexity requirements

Set or disable available encryption methods

Package & Share

Bundle files into zipped packages, creating convenient, logical groups of related files, perfect for emailing or archiving

NEW! Send Zip files instantly using Attach to E-mail, and use advanced options, such as 'best method' compression, file encryption and photo resizing*

Package and secure email attachments in Zip files, which transmit faster thanks to smaller file sizes

NEW! See the content of Zip file attachments in Microsoft Outlook with the Zip file previewer**

NEW! Double-click on a file in the Zip file previewer for Microsoft Outlook to open it for viewing**

NEW! Resize photos in zipped email attachments so your high-resolution pictures send faster and fit standard computer screens*

Quickly create and send Zip files from Windows Explorer with one-click Zip & E-mail

Resize photos when converting a Zip file or sending selected files from within a Zip file to an email recipient or a new Zip file

Create self-extracting archives (.exe files) with the built-in Self-Extractor Personal Edition

Use Save As, Rename, and New Folder commands to easily manage Zip files

Split Zip files to make large Zip files fit on removable media

View photos in Zip files without extracting, using the WinZip internal image viewer

Use the Photos button on the Backup tab to quickly transfer, rotate, and compress photos from supported cameras and cell phones
