

WordPerfect® OFFICE 11 Standard

The intelligent choice for office productivity™

WordPerfect® Office 11 is a different kind of productivity suite. It's not just innovative, it's intelligent. The way it responds to your needs, extends beyond your desktop, and integrates with the tools and technologies you use every day—this type of intelligence is essential to how you create, exchange and interact with content. From flexible file-sharing capabilities to XML integration to PDF publishing, WordPerfect Office 11 helps you work smarter and more efficiently.

Efficiency

With user-friendly features and an intuitive interface, WordPerfect® Office 11 brings a new kind of intelligence to office productivity. It offers extensive control over long documents and formatting. Plus, integration with industry-standard applications and technologies keeps you connected to the tools your colleagues and clients use every day.

Flexibility

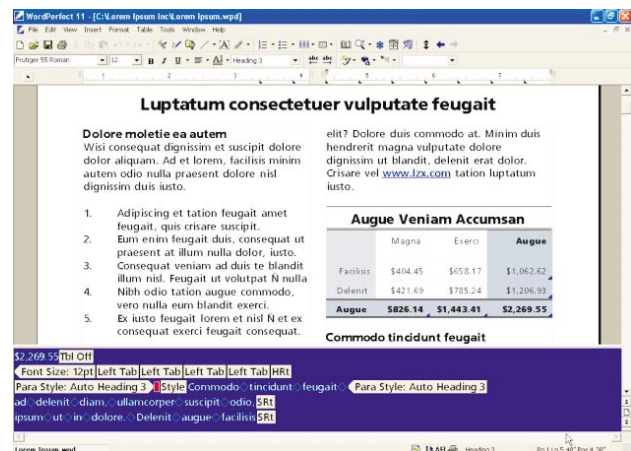

Whether you're authoring, reusing, sharing or publishing documents, our latest version of WordPerfect Office lets you communicate valuable information in virtually any format. It's engineered to work with open standards (XML and SGML), de facto standards (PDF and HTML) and competing technologies (Microsoft® Office), creating a collaborative, flexible and efficient working environment.

Choice

WordPerfect® Office 11 isn't just about making an intelligent choice, it's about making use of intelligent tools. An advanced, full-featured suite, it delivers real value while letting you choose the way you work. Take advantage of customization features and accessibility compliance to set up your workspace. We also offer simple and flexible licensing and Maintenance programs, as well as a full range of customer and technical support options, professional services and training.
