Corel® PaintShop® Pro X5 gives passionate photographers more to love with hundreds of photo-editing features, a streamlined workspace, new pro-level effects and one-click sharing. Retouch and restore photos with easy-to-use correction and photo-restoration tools. Explore your creativity with Instant Effects, the Retro Lab, layers, vector illustration tools and artistic brushes. New features include face recognition technology to identify and tag your friends, and the ability to map photos to real-world locations. When you're ready to showcase your photos and designs, sharing to sites like Facebook, Flickr and Google+ is just a click away!

**Target Market**
Corel PaintShop Pro X5 is the ideal photo-editing and design software for photo enthusiasts and digital designers who are passionate about their craft and want to bring out the best in their photos and designs. Users are looking for easy-to-use tools to achieve pro-level results and additional features that will let them experiment and stretch their creative muscles.

The demographic profile of the target user for this product is:
- 18 – 44 years of age
- Photo enthusiast, digital designer and/or content creators
- Socially and technologically savvy
- Passionate about their craft and expressing themselves creatively
- Early adopters of new technologies
- Use camera phone or DSLR to take photos
- Results-focused

**Competitive Positioning**
If you are passionate about expressing your artistic side, Corel PaintShop Pro X5 is the software for you. With powerful photo-editing and design tools, built-in learning resources and unique sharing features, it's the only all-in-one photo-editing and creative design software that goes as far as you do. Easily get pro-level results with advanced features and creative tools, and instantly show off your best photos and designs with new social media integration. From basic photo editing to more sophisticated visual and design effects, PaintShop Pro X5 has everything you need.

**Key Features and Benefits**

**Powerful photo-editing tools**
PaintShop Pro X5 provides all the photo-editing tools you need to create stunning images and bring your vision to life. Enjoy an easy and intuitive user experience with tabbed workspaces that mirror your natural workflow:
- Manage: quickly browse, tag and organize your images
- Adjust: easily make adjustments and quick fixes
- Edit: take advantage of professional tools for photo editing, image composition and graphic design

**Get incredible creative results—fast!**
Turn everyday photos into stunning images in just seconds with the quick and easy photo-editing features of PaintShop Pro X5. Use new Instant Effects to apply visual presets to get the perfect look for your photos and create and customize your own presets for use in future projects. Recreate low-fi camera effects using the all-new Retro Lab or try the new Graduated Filter tool to quickly and easily add unique color gradient effects to your images.

**Built-in sharing and social media features**
Share your photos and designs with the world using the new and enhanced social media features of PaintShop Pro X5. Create online albums, add descriptions, and simultaneously upload your photos and designs to Facebook, Flickr and Google+.

**Versatile creative design tools**
PaintShop Pro X5 is more than just a photo-editing solution, it's also a powerful design program that's perfect for any visual project—whether you're creating dynamic logos and designs, developing images for the web, or adding creative touches to your photos. Enjoy a variety of powerful design features, including creative brushes, textures, layers, vector tools and more!
Stunning HDR photos
Autobracketing is a powerful camera technology which automatically takes multiple shots of the same scene with different exposure settings. PaintShop Pro then selectively recombines the shots to create a single stunning HDR (High Dynamic Range) photo with intense visual contrast. PaintShop Pro X5 includes a variety of enhanced HDR features, including Exposure Merge features which allow you to preview HDR photo alignment and create black and white HDR photos. For added functionality, the Single RAW Photo feature allows you to split an individual RAW file into three images and then selectively recombine them to create an HDR-style effect.

RAW photo editing made easy
RAW is a powerful photo format which contains more information and detail than the traditional JPEG format of most digital cameras. PaintShop Pro X5 features the Camera RAW Lab, a unique tool system which supports hundreds of camera models, allows for simple batch processing to convert RAW image files, and includes the ability to apply non-destructive adjustments to your RAW photos.

System Requirements
- Microsoft Windows 8, Windows 7, Windows Vista or Windows XP with the latest service packs installed (32-bit or 64-bit editions)
- Intel Pentium 4 or AMD Athlon 64 or later (multi-core processor recommended)
