

New CorelDRAW® Graphics Suite X7 Gives Users the Power to Design Their Way *Redesigned User Interface, Customizable Workspaces and Enhanced Fill Options Help Users Add Speed and Power to Their Workflow*

OTTAWA, ON – March 27, 2014 – [Corel®](#) today introduced [CorelDRAW Graphics Suite X7](#), the latest version of its flagship graphics suite. With a redesigned and highly customizable user interface, the suite is tailored to each user’s workflow, offering new ways to increase productivity during every step of the design process.

“During the creation of CorelDRAW Graphics Suite X7, we solicited customer input more than ever before,” said Gérard Métrailler, Senior Director, Product Management – Graphics, Corel. “Each new feature is the result of direct customer feedback. Our goal is to ensure that CorelDRAW users can get the job done as fast as possible. So, we let them decide how they work with CorelDRAW Graphics Suite X7.”

This major release features powerful fill capabilities, high DPI, multi-monitor and touchscreen compatibility, and more ways to share content with the CorelDRAW community. In addition, multi-core and native 64-bit support allows users to run multiple applications and process large files with ease. The program will help users get started quickly, complete projects efficiently and make the design process their own.

New/Enhanced Time-Saving Features in CorelDRAW Graphics Suite X7:

- **Workspace Selection:** Choose between six pre-set workspaces based on proficiency levels and specific tasks: Lite, Default, Classic, Adobe Illustrator, Photoshop, Advanced Page Layout or Advanced Illustration
- **Quick Customization:** Tailor the workspace to reflect any workflow by simply adding or removing dockers, tools and other items
- **Fountain Fills:** Get better results faster with total control over fills and transparency; create elliptical and rectangular fountain fills, control transparency within the individual colors of a fountain fill, repeat fills within objects and adjust a fill’s angle
- **Font Playground:** Quickly and easily browse, experiment with and choose the perfect font
- **Multiple Document Interface:** Work with and switch between numerous documents, across multiple monitors, in a tabbed view to streamline any project
- **Photo-Editing Tools in PHOTO-PAINT:** Create unique images with pressure-sensitive liquid tools (Smear, Attract and Twirl) and camera effects (Bokeh blur, Sepia Toning and Time Machine)

- **High DPI Support:** Get a consistent appearance across devices with high DPI monitors; the interface is easily adapted for touchscreen capability, making it compatible with the latest PCs, laptops and tablets
- **QR Code Generator:** Create customized QR codes that feature colors, images and text; with one click, make sure the QR code is validated for all mobile devices
- **Alignment Guides:** Position objects quickly and accurately with suggested alignments to nearby objects
- **OpenType® Support, including Asian Text:** Save time with extended support for OpenType fonts, including Asian fonts, for full control over typography
- **Built-in Content Exchange:** Collaborate easily by sharing vector, bitmap and fountain fills with the community through this online repository, integrated with Corel® CONNECT™
