

Creating a text-crawl intro in Corel[®] VideoStudio[®] Pro X4

In this tutorial, we'll look at recreating the text-crawl intro made famous in the *Star Wars* film series.

What you will learn:

- Creating a title
- Adding an effect to a title
- Customizing the title effect

Corel® DISCOVERY CENTER

Creating a title

- 1. Add the video to which you want to add the intro to the Timeline.
- 2. Click the **Title** button **III** in the Library panel to display the title effects thumbnails.
- 3. Click the fifth title thumbnail on the top line, and drag it to the Title Track.
- 4. Double-click the Title Track. A text box appears in the Preview Window.
- 5. Delete the sample text, and add your title text.
- In the Preview Window, click **Project**, and click **Play** to preview the title.

The text should scroll straight up the screen.

Adding an effect to a title

- 1. Click the **Filter** button **I** in the Library panel.
- 2. Drag the **Picture-In-Picture** filter onto the title on the Title Track.

Corel® DISCOVERY CENTER

Customizing the title effect

- 1. Click **Options** tab **Options** \gtrsim .
- 2. Click the **Attributes** tab.
- 3. Click Customize Filter.
- 4. In the NewBlue Picture-In Picture dialog box, move the timeline indicator a to the start of the timeline.
- 5. Uncheck the **Use Keyframes** option box.
- 6. From the preset option thumbnails below the timeline, choose **Reset to None**.
- 7. In the Picture area, set the type **-60** in the **Rotation X** box.
- 8. Click **OK**.
- 9. You can change the color of the title by double-clicking the Title Track, clicking the Color swatch in the Options panel, and choosing a new color.
