To find out about effective Software Asset Management and further information on Corel Licensing Programmes. [Click here.](#)

## **Special Offer! Get compliant and Save on Corel Licensing.**

Corel is offering your organisation the chance to get legal, whilst making a saving on our licence programmes. To get legal and take advantage of these savings, sign up by contacting us at [complianceUK@corel.com](mailto:complianceUK@corel.com) before 30th September.

## **Corel Transactional Licensing (CTL)**

The Corel Transactional Licensing (CTL) Programme is a flexible and cost effective licence programme targeted towards the commercial and educational sector.

- Licences can be obtained by purchasing 1 licence for a single user or multiple licenses for additional named users
- CTL offers volume discount within five fixed discount levels (price bands) to ensure customers save when buying in volume
- There is no ongoing purchase commitment
- All current Corel licence products are available through CTL
- Home and laptop use is included provided both copies of the software are not being used at the same time
- Option to purchase maintenance, which ensures that software is kept current, convenient and up to date.

**Target Group:** CTL is designed for any business, department, government agency, registered charity or academic institution that requires licences for one or more Corel products.

## **The Corel Contractual License (CCL)**

The Corel Contractual Licence (CCL) is a yearly licence programme solely targeted towards the commercial sector. It guarantees an ongoing volume discount for one year.

- By committing to a certain number of licences a year you can benefit from a yearly discount pricing structure that is negotiated with Corel
- Easy licence administration and reduced deployment time when your entire site is governed by a single agreement
- A minimum initial purchase is required at the time the contract is signed
- The initial order can be a mix of new products, upgrades, maintenance, training, and support services
- If the agreement is not renewed, it expires 1 year after the Effective Date.
- All current Corel licence products are available through the CCL
- Home and laptop use is included provided both copies of the software are not being used at the same time

**Target Group:** CCL is designed for medium-to large-sized organisations that can utilise the advantages of a centrally negotiated discount pricing structure.

## Maintenance

Maintenance guarantees a flexible and cost-effective route to software support and ensures automatic protection for upgrades. Purchased in conjunction with your product licence, Maintenance is designed to ensure that your software is kept current, supported, convenient and up to date. Strong up-selling opportunity when selling licences!

- Upgrade to the latest version of your Corel software as soon as it is released - for two years following the date of your Maintenance purchase.
- Receive one Premium support incident for every 20 Maintenance licences purchased
- Premium support includes a freephone number to call for assistance and a Support Account Manager designated to work with you on any incidents. Additional Premium support incidents can be purchased as needed by contacting your Corel representative
- You may use licensed software one version back from the current version. This permits all entitlements to current licensing programs to be furnished to customers using a previous version of the software
- All current Corel licence products and both CTL and CCL programmes are available for maintenance

**Target Group:** For organisations seeking to retain the most up to date software and support.

## Corel Licence for Learning (CLL)

The Corel Licence for Learning (CLL) is a site licence that offers great value for money with maximum benefits to all educational institutions.

- CLL helps ease licence administration across an institution
- CLL is 3 year programme that allows you to licence Corel products on a multi-platform basis (educational site licence)
- At the end of the 3 year commitment you have three options:
  1. Renew the CLL agreement for a further 3 years
  2. Pay the perpetual fee. This means ownership transfers to your institution
  3. You can uninstall.
- Pricing banding is dependent on institution type i.e. primary school, secondary school, Higher Educational College etc
- There is also the option of buying the licences upfront before entering the 3 year agreement

### The CLL programme includes the following products:

- CorelDraw Graphics Suite X3
- Corel Painter IX.5
- Corel Paint Shop Pro X

**Target Group:** Academic Institutions (Primary Schools, Secondary Schools, Higher Educational Colleges, Vocational Colleges and Universities).

## Corel Freedom Graphics Subscription Licence Programme

The Corel Freedom Graphics Subscription Licence is a flexible and cost effective multi-product licence programme targeted towards the commercial sector. This licence allows users to use a range of the most up to date versions of Corel's range of graphics and digital imaging products in one licence, so organisations can increase productivity and make compatibility a non-issue.

- The Corel Freedom Graphics Subscription licence is a 1 year subscription programme
- Complete flexibility – select which products you want to use where within your organisation, or use all five!
- No tie-in – at the end of the year you have the option to uninstall or renew for another year at a value price
- Streamline support - the licence comes with the peace of mind of premium technical support (1 per 20 seats purchased)
- Minimum 100 seats
- Free upgrades included – every user is entitled to install any new versions that are launched within the year, so you always have the most up to date solution.

### The Corel Freedom Graphics Subscription Licence Programme includes:

- CorelDRAW Graphics Suite X3
- Corel Paint Shop Pro X
- Corel Painter IX

**Target Group:** Any company looking for a cost effective, multi-product licence for a complete set of graphics applications to improve compatibility and productivity within their organisation.
