*Free Wacom Pen Tablet\* With CorelDRAW Graphics Suite 12\*\**

**London, UK – 1st June 2004** – Corel is pleased to announce the launch of its summer promotion – a free Wacom pen tablet Graphire3 Classic\* (worth £69.99 including VAT) with the purchase of CorelDRAW Graphics Suite 12\*\*. The offer is running between 1<sup>st</sup> June 2004 and 1<sup>st</sup> September 2004 and sees the collaboration of two award-winning graphics specialists – Wacom and Corel.

When you combine the powerful free-expression capabilities in the award-winning CorelDRAW Graphics Suite 12 with the precision of a Wacom Graphire3 Classic pen tablet, the results are truly amazing. When a designer needs to sketch a design and get ideas down fast with professional results, the Smart Drawing tool feature within the suite – unique to Corel – is key to getting the job done. The Smart Drawing tool intelligently smoothes curves, minimizing the number of steps required to produce polished graphics. Another key time-saver is the Smart Drawing tool's ability to cleverly interpret freehand line drawings, instantly applying symmetry and balance so that designers can easily create perfect forms, on the fly.

True design concepts can be easily transformed into works of art when pressure sensitivity pen technology is combined with the artistic media capabilities of Corel PHOTO-PAINT. The Wacom Graphire3 Classic is a first-class solution for digital image processing and with it you can process and edit photos with more ease, convenience and precision.

“We are delighted to offer our customers such a fantastic offer”, says Amanda Bedborough, executive vice president of Corel. “This is such a great deal for anyone looking to add a graphics element to the work they do and using the Corel suite with the Wacom pen tablet gives incredible results.”
