CorelCAD™ Update Now Available

New functionality and enhancements improve performance and further expand the capabilities of CorelCAD

Maidenhead, UK – November 23, 2011 – Corel today announced a new update for CorelCAD™, the powerful and affordable CAD solution introduced earlier this year. Available today as a free download for current CorelCAD customers, the update adds significant functionality and enhancements that will benefit a wide range of users in the architecture, engineering and manufacturing design communities. The first update to CorelCAD delivers enhancements to 3D modeling with the introduction of new 3D editing tools, 3D input device support and 3D display improvements. New 2D drafting tools allow for greater control for creating precise CAD drawings and modifying objects on screen. Paired with overall performance improvements and new full support for Mac OS® X 10.7 (Lion), this update helps designers work with even greater speed, flexibility and efficiency.

The first significant update to CorelCAD delivers new functionality, enhancements and improvements focused on helping users to be as productive as possible

In response to feedback from customers, the latest CorelCAD update features the following improvements:

- **New** 3D editing tools and enhanced 3D modeling capabilities that includes the fillet tools for 3D edges and advanced editing of 3D surfaces for delivering advanced 3D designs efficiently
- **New** Smart Dimension tool for creating CAD drawings with precision and ease that automatically detect and suggest best matching dimension tools including Lines, Poly Line segments, Arcs, Circles, and Rings
- **New** print configurations that can store advanced print settings for different layouts and set configurations as presets across multiple projects
- **New** support for 3D Connexion input devices for Windows for quick 3D navigation on screen
- **New** VoiceNotes and Spellchecker for the Mac® - the unique CorelCAD annotation feature
- **New** full Mac OS X 10.7 (Lion) support
- **Improved** memory and performance for 3D display with increased rendering speed
- **Improved** performance to start up time on Mac OS X 10.7 (Lion)

"CorelCAD users work in diverse industries with varying workflows," said Klaus Vossen, Product Manager for Technical Graphics at Corel. "As a result, we are continuously working with our customers to prioritise our development efforts in order to deliver the most meaningful enhancements. We are pleased to deliver an update that further extends the capabilities of CorelCAD and helps our users in multiple industries to achieve the best results possible".

CorelCAD Delivers Power and Precision at an Affordable Price
CorelCAD is a powerful and affordable CAD solution that delivers native .DWG (industry standard CAD file format) support, and the ability to seamlessly navigate between 2D and 3D environments. Optimised for the Mac® and Windows® platforms, CorelCAD enables engineers, designers and architects to quickly and easily customize their work environments and work with even greater speed and efficiency. Corel partnered with Graebert GmbH to develop and market CorelCAD, offering users an intuitive environment with familiar command bars, aliases, menus and toolbars. In addition, CorelCAD provides excellent compatibility, working natively with the AutoCAD® DWG™ file format and eliminating the need for an import / export process to read and write files in the industry standard format.

Availability
The free update is available for download from Corel's website www.corel.com/updates. CorelCAD is available in English, German, French, Spanish, Italian, Brazilian Portuguese, Czech, Polish and Russian language versions at the SRP of £579 excluding VAT. Registered users of CorelDRAW® Graphics Suite X4 or higher and Corel DESIGNER® Technical Suite X4 or higher are eligible for cross-grade pricing of £419 excluding VAT. Commercial and academic volume licenses are also available
