## Introducing Corel® PDF Fusion™

It's really no surprise why PDF has become the de facto standard for exchanging documents with business, government, legal, and everyday users. PDF is simply one of the easiest ways around to share information. Thanks to the ubiquity of PDF and the availability of lightweight readers for almost any of today's devices, when you choose this industry-standard format, you can ensure that text, graphics, and images appear as you expect and can be easily shared with just about anyone, anywhere.

But with all the wonders of PDF, users are still only able to take full advantage of its power if they have a tool that makes it easy to create PDFs from a wide variety of files. That's where Corel® PDF Fusion™ comes in. Corel PDF Fusion lets you view and work with over 100 formats without the expense and hassle of buying and installing the software used to create the file. In addition to supporting the file formats you use every day, Corel PDF Fusion is ideal for opening and sharing file types that you may not typically work with.

Once you've opened a file in Corel PDF Fusion, you'll see that the product takes a unique, visual approach to building documents. You can use a simple drag-and-drop to add new content and then quickly flip through the pages. It's easy to make quick edits, thanks to a context-sensitive interface that displays the tools relevant to the job at hand. Corel PDF Fusion also lets you save PDFs from any application on your system that has print capabilities and batch convert multiple files to PDF (or XPS). To keep things secure, PDF files from Corel PDF Fusion can also support high security and data encryption levels, giving you control over who can open and modify your documents.

Corel PDF Fusion is an affordable and powerful tool that offers a simple and intuitive workflow for viewing, editing, assembling, and creating PDFs. It's fast and easy to bring together content from a range of sources — text and data from several different proprietary formats, images, and even graphics — to create PDF packages that really get your message across.

## Customer profiles

**Small business:** Value-conscious, small- or home-based businesses are always seeking ways to fine-tune their messaging and improve communications with customers. Whether the files for a job are coming in or going out, it can be costly and complicated to have a multiple software products on hand to open and share with customers and vendors.

**Enterprise:** To improve and streamline information sharing, medium and large organizations seek a low total cost of ownership (TCO) PDF tool. They also seek easy-to-use applications for archiving critical files in ISO-compliant standards and accessing information stored in legacy documents.

**Government:** Public sector organizations and government departments require a low-cost tool for creating and editing PDFs that doesn't demand intense user training. In addition, they need the ability to access content stored in legacy files, possibly created in applications they no longer support.

**Legal:** Legal professionals and entities, ranging from small firms and solo practitioners to large firms and legal aid groups, require robust PDF capabilities, including support for PDF/A. They also seek tools that can handle file formats that are key to the legal workflow, such as Microsoft® Office and WordPerfect®.

# 2

## Key features

Corel PDF Fusion offers a streamlined, intuitive workflow for viewing, editing, assembling, and creating PDFs.

### View

**Open more than 100 file types:** Some other PDF solutions only open PDFs. Corel PDF Fusion is different. It lets you open, edit, annotate, and combine more than 100 formats — even if you don't have the software used to create the file. You can open and reuse information from Microsoft® Word and WordPerfect documents, a variety of spreadsheets, dozens of graphic formats, even complex Microsoft® Visio® and AutoCAD® technical illustrations. For a list of supported formats, see "Appendix A: Supported file types" on page 10.

**Scroll through long documents:** The Flick view lets you flip through pages in a document just like you would pages in a book. You can adjust the page size and the scrolling speed, making the Flick view great for finding a specific page in long document.

*The Flick view is great for finding specific content.*

## Give it a try

### Scrolling through a document

- 1 Click the **Switch to LaunchPad** button .
- 2 Drag files from the **Sample folder** on the FTP site to the **Flick View** pane.  
You can use the buttons at the bottom of the Flick View pane to scroll and change the page size.

**One-click slideshows:** The Presentation view lets you display any file as a slideshow. In one click, you get a full-screen look at a file, and you can scroll through it page-by-page.

## Assemble

**Combine a variety of formats in one document:** Corel PDF Fusion lets you repurpose more than 100 file types without having the native software installed to create streamlined information packages.

**Quickly assemble content:** With a simple drag-and-drop, you can extract a page from a document, data from a spreadsheet, a slide from a presentation, images — files from a wide variety of formats — to create a single, concise document tailored to your audience.

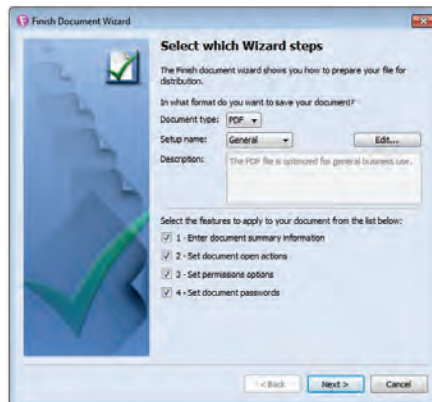

*With a simple drag-and drop, you can bring together content from a variety of sources.*

## Give it a try

### **Assembling and ordering content**

- 1 Click the **Switch to LaunchPad** button .
- 2 Drag files from the **Sample folder** on the FTP site to the **Assembly View** pane.  
The **How to use the Assembly View** dialog box opens to guide you through assembling and finalizing a document.
- 3 You can add and reorder pages by dragging the page thumbnail.
- 4 When it's time to output the file, you can save it to PDF, XPS, or DOC.

**Fine-tune your output:** Corel PDF Fusion can guide you through the final steps of creating your PDF or XPS file. The Finish Document Wizard helps you optimize the file for print or the web, enter document summary information, set opening preferences, and apply password protection.

*The Finish Document Wizard helps you quickly finalize a document.*

## Edit

**Simplify collaboration and editing:** Whenever you select text, an intuitive toolset appears for collaborating, editing, and more.

- **Collaborate easily:** Corel PDF Fusion has an intuitive set of annotation tools to facilitate collaboration. Whether you're highlighting, striking out or underlining text, marking text for redaction, or adding a sticky-note comment, a streamlined toolset makes document reviews fast and efficient. And when you circulate the document, you can share it as a PDF, XPS, PNG, or DOC file.
- **Edit text quickly:** With Corel PDF Fusion, making final touchups in a PDF is a snap. When you select text, an editing toolset displays beside it, so you don't have to search through menus and toolbars to find what you need. And any changes you make won't alter the flow of the document.
- **Create hyperlinks:** To help your audience get the most out of your documents, Corel PDF Fusion offers easy-to-use linking tools. You can link text to another page in the document, to another document, or to a web site.
- **Add bookmarks:** Bookmarks help your audience navigate your PDFs and draw them to critical content. You can quickly create a bookmark by selecting heading text. You can even add a bookmark to an image or object in your file.

**Add text anywhere:** The Free Text tool lets you seamlessly add a block of text anywhere in your document. Intuitive formatting controls ensure that any text you add looks like the existing text.

**Secure files:** Corel PDF Fusion helps protect your documents and any sensitive content they may contain. In a couple of clicks, you can quickly redact blocks of text or find and redact all instances of a word. You can also password-protect files and restrict printing, copying, and editing.

**Insert watermarks:** If you need to add watermarks to a file, Corel PDF Fusion offers a set of interactive controls to easily set the watermark font, position color, size, opacity, and angle.

**Edit pages:** Corel PDF Fusion has hassle-free tools for tailoring pages to suit the look of your document. In a click, you can rotate or crop pages. You can also rearrange the page order with a simple drag-and-drop.

## Create

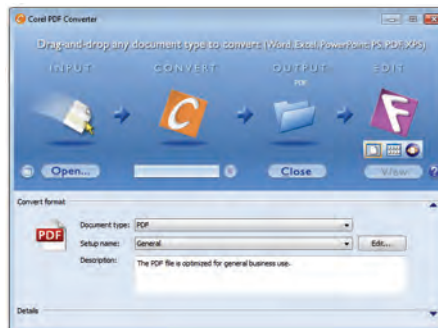

**Create documents in multiple formats:** Corel PDF Fusion lets you draw content from more than 100 file types and share your work in the format that works best for your audience.

And when PDF isn't the output format you need, you can also save your work to other industry-standard formats, such as DOC, XPS, or PNG. When you convert a PDF to DOC, all text formatting, layout, and graphics are preserved.

*You can output to multiple formats.*

**Convert multiple files:** You can turn all your project files into PDF, XPS, or Microsoft Office files in a couple of clicks. The time-saving Corel® PDF Batch Converter lets you drag-and-drop multiple files to convert a batch of documents in one simple action.

*You can convert multiple files to PDF, XPS, or DOC at the same time.*

**Print to PDF from Microsoft Office:** The Corel® PDF Creator feature lets you publish to PDF from any other program on your system that has printing capability. Even more impressive, a PDF-creation tab appears on the ribbon in Microsoft Word, Microsoft Excel, or Microsoft PowerPoint, so you can quickly and easily turn any DOC, XLS, or PPT file into PDF.

*You can create PDFs from any application that can print.*

## Give it a try

### **Print to PDF from any application that prints**

- 1** Open a file in any application on your system that has printing capability.
- 2** Click **File** menu ▶ **Print**.
- 3** Choose the print driver named **Corel PDF Creator**.  
After the document prints, the PDF opens automatically.

**Publish to PDF/A:** Addressing a critical need for government and legal offices, Corel PDF Fusion helps you comply with ISO standards by offering support for PDF/A, the de facto archiving format.

## Minimum system requirements

- Microsoft® Windows® 7, Windows Vista®, or Windows® XP with latest service packs installed (32-bit or 64-bit editions)
- 512 MB of RAM (1GB recommended)
- 250 MB of available hard-disk space
- 1.3 GHz or faster processor
- 1024 x 768 screen resolution

## Appendix A: Supported file types

Check out the variety of file formats you can view, edit, assemble in packages, and reuse when creating new documents:

### Word processor

Adobe® FrameMaker® (MIF only)	Adobe® Illustrator® PostScript	Ami, Ami Pro for Windows, Ami Pro for OS2	DEC DX, DEC DX Plus	Enable Word Processor
First Choice WP	Framework WP	Hangul	IBM® DCA/FFT	IBM® DisplayWrite
IBM® Writing Assistant	Ichitaro	JustWrite	Legacy	Lotus® Manuscript
Lotus® WordPro®	MacWrite® II	Mass II	Microsoft® Publisher (File ID only)	Microsoft® Word for Windows, Macintosh, DOS, Microsoft® WordPad
Microsoft® Works WP for Macintosh, DOS	Microsoft® Write for Windows	MultiMate, MultiMate Advantage	Navy DIF	Nota Bene
Novell® PerfectWorks	OfficeWriter™	Open Office Writer	PC File Doc	PFS: Write
Professional Write for Windows, DOS	Q&A Write	Samna Word IV, Samna Word IV+	Signature	SmartWare II WP
Sprint	StarOffice Writer	Total Word	Wang IWP	WordMarc Composer, WordMarc Composer+, WordMarc Word Processor
WordPerfect® for Windows, Macintosh, DOS	WordStar 2000 for DOS	WordStar for Windows, DOS	XyWrite, up to III+	

### Spreadsheet

Enable Spreadsheet	First Choice SS	Framework SS	IBM® Lotus® Symphony	Lotus® 1-2-3 Charts, for Windows, DOS, OS/2
Microsoft® Excel® for Windows, Macintosh	Microsoft® Excel® Charts	Microsoft® Works SS for Windows, DOS, Macintosh	Multiplan	Novell® PerfectWorks Spreadsheet
OpenOffice Calc	PFS: Plan	Quattro Pro® for Windows, DOS	SmartWare, SmartWare II	StarOffice Calc
SuperCalc	Symphony	VP-Planner		

Presentation
