Technology Powerhouse

Maximize your viewing experience with state-of the-art audio and video technologies.

Improve the playback quality of your DVDs!

- **Upscaling technology** uses real-time processing to smoothly resize and enhance the playback picture quality of standard DVDs, on today's high-resolution monitors.

Enhance low-resolution video

Clean up digital artifacts from MPEG, H.264 and VC-1 video

- **De-snow filter** removes digital noise from low-resolution video.
- **De-block filter** removes blocky digital artifacts from compressed video.

Hardware graphics acceleration

*Supports display cards featuring **Intel® Clear Video**, **ATI AVIVO™** and **NVIDIA PureVideo®** technologies that offer hardware-enhanced video playback.*

- Enjoy **sharper, more vibrant** video images
- **Minimize CPU utilization** and power consumption
- Apply **advanced de-interlacing**
- **Scale videos** to any size with high-precision processing.

The best of the audio world

Enjoy the immersive audio experience with full support for the latest audio technologies.

- **Dolby Digital® Surround Sound** – Play 5.1-channel audio.
- **DTS™ 2.0 Channel** – Support 2-channel digital sound for titles with DTS technology.
- **SRS audio technologies** – Selectively enhance movie dialog or music, or create a virtual surround effect on two speakers.
- **Dolby Virtual Speaker™** – An advanced psychoacoustics algorithm creates a 5.1 surround sound environment on two speakers.
- **Dolby Headphone™** – Processes 5.1 audio to create a vivid surround environment on standard headphones.

More video effects and convenient playback controls

- **Video Effects** – Customize and improve the look of movies with Cinema Enhancement, Old Film, Sharpness, and more!
- **SmartStretch** – Fills your widescreen TV when viewing 4:3 movies, by intelligently stretching only the edges of the video and maintaining the center portion of the image.
- **Pan & Zoom** – WinDVD lets you click and drag to zoom in and pan across any part of the screen to get a closer look.
- **Playlists**– Create your own playlists with audio tracks or video files from DVDs, VCDs, SVCDs and CDs.
- **Bookmark** favorite spots and save them as a file (.bmk) for later, or send to a friend.
- **UPnP Client** – Plays back content from other UPnP-certified devices within home network, with thumbnail views of available clips on the network.
- **Capture Image/QuickClip** – The new capture controls make it even easier to grab your favorite movie scene as a still picture or animated clip, that you can easily share with friends via email or mobile phone!
- **Instant Replay** – Ctrl-B lets you jump back to the line you missed, or catch that action sequence again!
- **Smooth Reverse Playback** - WinDVD 9 supports smooth reverse playback without frame drops.

Complete Format support

- **Standard-Definition:** Includes DVD-Video, DivX®, Real® Player, QuickTime®, Windows® Media, and AVI.
