WinZip Mac 4: Safe and Simple File Sharing with iCloud Drive, ZipShare, Google Drive and Dropbox

New integration with iCloud Drive and ZipShare®, easy access to your Mac sharing options, and Retina support makes WinZip® the ideal file sharing app for your Mac

MANSFIELD, CONNECTICUT– (Marketwired – June 18, 2015) – Introducing WinZip® Mac 4, the latest version of WinZip's file sharing app that makes it simple to manage, protect and share files across the cloud, email and social media. With new support for iCloud Drive, WinZip's ZipShare® file sharing service, and easy access to your Mac's connected sharing options, WinZip Mac 4 makes safe file sharing a breeze. Offering powerful file protection and a legendary Zip engine, WinZip is available at www.winzip.com/mac and on the Mac App Store.

Designed for Retina displays, the new features in WinZip Mac 4 make it easy to zip and protect your files with powerful AES encryption while delivering new sharing options to seamlessly connect to your cloud services.

- **New! Built-in iCloud Drive integration:** Connect directly to several cloud storage services, including Dropbox, Google Drive—and now iCloud Drive. Use WinZip to zip your files to iCloud Drive or retrieve files to share. Secure your files before you store and share in the cloud with powerful AES encryption and save online storage space by zipping them first.

- **New! ZipShare:** Get direct access to WinZip's file sharing service, ZipShare. Connect to your cloud accounts and easily share compressed files via email. Zip and share any type of file along with a message to Facebook, Twitter and LinkedIn. Send files up to 50MB free using ZipShare or move up to ZipShare Pro to send up to 2GB.

- **New! Share button:** Get direct access to the sharing options you've set up in your OS X settings. Choose your destination, such as Facebook, Twitter, instant messaging or others and WinZip uploads the zip file to one of your cloud services, then emails, posts or tweets your link.

- **New! Retina support:** Enhanced with high-DPI support, WinZip Mac 4 looks sharp on Apple Retina displays.

"WinZip Mac 4 gives users an easy way to add extra privacy protection and send files to others or even between their Apple devices. With iCloud Drive support now available in WinZip's apps for iOS and OS X, we're making it faster, safer and simpler to send large files from your Mac, iPhone and iPad," said Bill Richard, VP of Development for WinZip.

WinZip Mac 4 integrates with the Mac OS X Quick Look tool, enabling you to browse the contents of a Zip file before it is unzipped. With support for Zip, Zipx, RAR, LHA, 7Z, JAR, and WAR formats, WinZip makes it easy to open any compressed file you receive, regardless of the platform it was created on. With apps for Mac, iPad and iPhone, WinZip makes it safe and easy to share files on your favorite Apple devices.
